instruction sign showing the basic exercise and a QR code. By using the QR code users can connect to the KOMPAN fitness App, where they will find multiple exercises and workouts at every level.

The Robinia bars are made from de-barked and sap-free Robinia trunks in various dimensions.

Robinia is a native European wood species with high strength and natural durability in various climatic conditions. KOMPAN uses wood from FSC-certified sources.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3)
