

# Tropical Cyclone

## Description

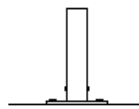

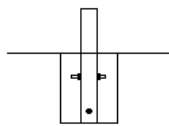

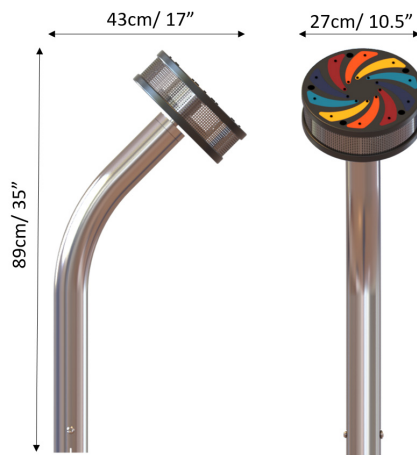

A miniature version of our Cyclone. Its colorful rainbow design and smaller size make it ideal for use in early childhood settings. Turning the wheel sets the ball bearings in motion, creating a realistic rain sound. Players can adjust the intensity of the sound by spinning the wheel harder or softer, promoting gross motor skills and teaching the concept of cause and effect. Whether it's a gentle drizzle, a heavy shower, or a full-blown downpour, the Tropical Cyclone allows for a range of rain sounds to be explored.

## Materials and Features

316 mirror polished marine grade stainless steel stand.  
 HDPE wheel faces with rainbow anodized details.  
 Stainless steel mesh.  
 Stainless steel ball bearings.  
 Vandal resistant fixings.

## Tuning and Sound Level Data

Unpitched Percussion
