

JELLO # 313 ACTS

An urban element that is hard to categorize. A sculptural mix between a robust bollard, resting place, rendezvous and bicycle parking.

Design: NATiON + KSA DESIGN

TECHNICAL DATA

Material

Moulded white/grey/black fibrous concrete. Resists wear and weather. Fibrous concrete is a dynamic material. Minor, cosmetic cracks may occur over time. Reinforced with stainless steel to strengthen the legs. Top plate/ring made from stainless steel.

Dimensions

Ø1160 x 700mm.

Bike function

Up to 10 bikes can be placed in the slits. An installation with Jello and 10 bikes reaches a diameter of 4m.

Fixation

Directly positioned on the ground. No fixation needed due to its weight of 400kg.

Variant

Available in grey concrete.

Maintenance

Maintenance-free

To ensure easy removal of dirt and graffiti it is recommended to give the surface an anti-graffiti treatment.
